

FOR IMMEDIATE RELEASE

Oceans Massage and Skin Care Offers New Spa Experience in Ocean Isle Beach
Restorative and Nurturing Treatments for a Complete Mind-Body Experience.

Ocean Isle Beach, NC – Today, Oceans Massage and Skin Care opens in Ocean Isle Beach, North Carolina, bringing the highest quality massage and skin care services to the area. Committed to supporting and nurturing the mind-body connection, Oceans Massage and Skin Care offer a streamlined service menu of therapies and facials all with their guest’s quality of life in mind. The spa is tranquilly appointed to ensure that each visit is peaceful and comfortable.

Oceans Massage and Skin Care is located in Silver Coast Market Place conveniently between Ocean Isle Beach and Sunset Beach at 7199-1 Beach Dr. The spa’s treatment rooms feature calming colors and a soothing ambiance without the distracting noises of hairdryers and the odors of nail products. However, guests can still experience the full benefits of a complete spa at their sister salon, Oceans Salon and Spa, just two doors down in the same plaza.

“We are excited to bring a truly different spa experience to our neighbors and visitors,” says Cindy Ehrhardt,” owner and massage therapist. “I want to introduce people in the community to the restorative and health benefits of massage, in addition to the pampering aspect.”

Treatments focus on two core areas: restorative massage therapy and comprehensive skin care. Signature massage treatments include the *Oceans Signature Ritual* massage, which includes a combination of aromatherapy, hot towels, and a variety of modalities tailored to the guest’s specific needs for maximum relaxation and therapeutic results. Other therapeutic massage services include the *Deep Sea Body Therapy* deep tissue and the *Ebb and Flow* couples massage.

The Oceans Massage and Skin Care philosophy that skin care is not a luxury but a necessity is reflected in their expansive list of pampering and clinical skin care services like the *Sea of Life Anti-Aging* facial, a chemical peel of naturally derived fruit enzymes to resurface and bring back the skin’s natural glow. For a relaxing experience, Oceans Massage and Skin Care offer their *Oceans Signature Facial* for guests who want to indulge in an hour of me-time.

“Skin is the largest living organ we have,” says Shelly Mayo, licensed aesthetician. “It deserves to be kept healthy.”

Oceans Massage and Skin Care specializes in customized clinical facial treatments like microdermabrasion, dermafilig, and chemical peels. They also offer a complete menu of waxing services, including the Brazilian. All of Oceans Massage and Skin Care services are designed to improve the mind-body connection.
